Table of Contents

Chapter 1 Introduction to the research 14

1.1 Overview of the research 14

1.2 Aims of the research 16

1.3 Terminology and chronology 18

Chapter 2 Archaeological human remains from watery contexts in Britain and northwest Europe 21

2.1 Introduction 21

2.2 Interpretations of human remains from watery contexts 21

2.3 Chapter summary 30

Chapter 3 The River Thames 32

3.1 The Lower Thames through time 32

3.2 Archaeological human remains and artefacts from the River Thames 39

Chapter 4 Methods 48

4.1 Defining the River Thames and Maynard Reservoir human remains assemblages 48

4.2 Temporal data 73

4.3 Taphonomic histories 77

4.4 Demography 86

4.5 Violence-related trauma 91

4.6 Carbon ($\delta^{13}C$), nitrogen ($\delta^{15}N$), and sulphur ($\delta^{34}S$) stable isotope analysis 98

Chapter 5 Assemblage overview 107

5.1 The River Thames human remains assemblage 107

5.2 The Maynard Reservoir human remains assemblage 123

5.3 Chapter summary 132

Chapter 6 Chronology and the taphonomic histories of the assemblages 133

6.1 Chronology results 133

6.2 Chronology discussion and summary 154

6.3 River Thames assemblage taphonomic histories 155

6.4 Maynard Reservoir assemblage taphonomic histories 171

Chapter 7 Demography and violence-related trauma 179
7.1 Demography: River Thames assemblage results.....179
7.2 Demography: River Thames assemblage discussion.....184
7.3 Demography: Maynard Reservoir assemblage results.....192
7.4 Demography: Maynard Reservoir assemblage discussion.....196
7.5 Demography summary 198
7.6 Violence-related trauma: River Thames assemblage results 198
7.7 Violence-related trauma: River Thames assemblage discussion 228
7.8 Violence-related trauma: Maynard Reservoir assemblage results ...237
7.9 Violence-related trauma: Maynard Reservoir assemblage discussion 239

Chapter 8 Perspectives on diet from carbon ($\delta^{13}C$), nitrogen ($\delta^{15}N$), and sulphur ($\delta^{34}S$) stable isotope analysis 242
8.1 Results 242
8.2 Discussion 256
8.3 Chapter summary 268

Chapter 9 Discussion 270
9.1 The River Thames assemblage 270
9.2 The Maynard Reservoir assemblage 281
9.3 Limitations 283

Chapter 10 Conclusions 285
10.1 The River Thames assemblage 286
10.2 The Maynard Reservoir assemblage 288
10.3 Future work 290
10.4 Final remarks.....292

Bibliography 293

Appendix A The temporal dataset..... 336

Appendix B The genetic sex dataset 347

Appendix C The isotopic dataset 348
